To Whom It May Concern:

This is a letter of recommendation for The Band BlackSheep.

We had the pleasure of working with the Band BlackSheep during last year's Florida State University Football season. The band was hired to play at our club every Friday night prior to the home games. I can easily state that the band provided an excellent experience for our members and guests each and every time. They would strive to exceed our expectations and responded to workplace changes with flexible and optimism concerning performing outside on our terrace or inside the club's grille. There was always clear communication, which was supported by professional business ethics.

It has been a pleasure to partner with the Band BlackSheep and I am delighted to recommend them for future events.

Sincerely,

Tracy A. Marple
UCC General Manager
